4. Two **Hungarian Musical Instruments Maps** were made by Hungarian students (Kevin Kákóci and Boglárka Lengyel). One of them was introduced by Boglárka Lengyel in the meeting.

Good afternoon! I'm Boglárka Lengyel, and I would like to introduce you the most important Hungarian folk musical instruments. Some of our traditional musical instruments were made not by craftsmen, but everyday people could make them. These are for example: sip (whistle), bűgattyú, bika, or köcsögduda. These were the instruments of the poorest people.

Other instruments needed craftsmen's skills to prepare. These instruments are for example doromb (jew's harp), tekerő, szájharmonika (mouth-organ), duda (horn). To buy these instruments people need to have money. To make these instruments the craftsmen used metal, and materials basically from animals, plants. For instance, doromb is made of metal.

Nádsíp is made of a plant. However, köcsögduda, bika, duda, kanászkürt have parts of animals' origin. The ones who could play any musical instrument were respected people of the community.

Thank you for your attention!

5. **Presentations of the visiting countries** about their traditional musical instruments
